

Adult Care Worker Apprenticeship

To work in care is to make a positive difference to someone's life when they are faced with physical, practical, social, emotional or intellectual challenges. Adult Care Workers need to have the right values and behaviours developing competences and skills to provide high quality compassionate care and support.

They are the frontline staff who help adults with care and support needs to achieve their personal goals and live as independently and safely as possible, enabling them to have control and choice in their lives which is at the heart of person centred care. Job roles are varied and determined by and relevant to the type of the service being provided and the person supported. Adult Care Workers may work in residential or nursing homes, domiciliary care, day centres, a person's own home or some clinical healthcare settings.

This standard covers both Adult Care Workers and Personal Assistants. Personal assistants do the same job as an Adult Care Worker and work directly for one individual usually within their own home. Working with people, feeling passionate about supporting and enabling them to live a more independent and fulfilling life is a rewarding and worthwhile job that provides excellent career opportunities.

Entry

Employers will set their own entry requirements in order to start on this apprenticeship.

Duration

Typically this apprenticeship will take 12 months.

Level

This apprenticeship standard is set at level 2.

Progression

This apprenticeship provides an ideal entry into the occupation and supports progression within the sector.

Industry Specific Requirements

- ▶ Undertake the Enhanced Disclosure and Barring Service process and provide the result prior to starting
- ▶ The Care Certificate must be achieved as part of the Apprenticeship Standard.

Qualifications

Level 2 Diploma in Care (RQF). This qualification, promoted and valued by employers, is achieved by a combination of direct teaching and self-directed learning.

Functional Skills

If the employee does not have maths and English GCSE passes at grade C or above, they will need to pass maths and English Functional Skills level 2 during their Apprenticeship.

End Assessment

To achieve this apprenticeship standard, the employer, training provider and apprentice will agree when the apprentice is ready and competent to undertake the independent end assessment.

C2C Professional Trainers

Alongside the apprentice they will agree on a personal learning and development plan, setting a timetable of learning activities in preparation for the End Point Assessment (EPA).

The C2C Training Consultant will meet with the apprentice regularly either online or face to face to complete and review assessments, provide further coaching where required and agree the next steps of learning.

- Use risk assessments to support individuals safely
- Recognise symptoms of cognitive impairment, e.g. Dementia, learning disabilities and mental health
- Monitor and report changes in health and well being for individuals they support

Working professionally and seeking to develop their own professional development

- Reflect on own work practices
- Demonstrate the development of their own skills and knowledge, including core skills in writing, numbers and information technology
- Demonstrate their contribution to their development plan
- Demonstrate ability to work in partnership with others to support the individual
- Identify sources of support when conflicts arise with other people or organisations
- Demonstrate they can work within safe, clear professional boundaries
- Show they can access and apply additional skills required to perform the specific job role competently

Independent End Point Assessment

The end point assessment will only commence once the employer, apprentice and C2C Trainer are confident that the apprentice has developed all the knowledge, skills and behaviours defined in the apprenticeship standard and clearly evidenced by the on-programme progression review meetings and records. The independent end assessment ensures that all apprentices consistently achieve the industry

set professional standard and can commence at any point once the apprentice is competent after the minimum period of learning and development. Prior to independent end assessment the functional skills English and maths components of the apprenticeship must be successfully completed.

Summary of independent end point assessment process

The synoptic end point assessment will include two distinct components. Firstly, the completion of a situational judgement test answered through a multiple choice exercise (but not necessarily undertaken as an online or computer-based test) and secondly a professional discussion. To achieve final certification, the apprentices must have

completed and achieved these end point assessments in addition to the Care Certificate and the Diploma. The assessment will demonstrate that the apprentice can apply their knowledge, skills and behaviours in an integrated way and will satisfy the requirements for the award of an apprenticeship certificate.

Situational judgement test

The situational judgement test will present the candidate with a range of real-life scenarios about which the learner will have to answer questions in a multiple choice format (60 questions). The assessment will normally be undertaken online, under controlled conditions with a time limit applied. Questions will draw from the stated knowledge and skills elements of the standard and focus on the higher order competencies. Material may be drawn from any part of the apprenticeship standard.

Professional discussion

A professional discussion will be undertaken with an independent assessor. The discussion will be of no more than 45 minutes duration. Candidates can only apply to undertake the discussion component once the multiple choice assessment has been achieved. The discussion will draw questions and amplifications from prior learning and experience including, where applicable, the candidate's self-assessment and supporting evidence including testimony from users of services and a sample of standardised candidate questions asked of every apprentice candidate in the interview. These questions will be developed and made open and public on the internet.

Qualifications and On-programme Assessment

It is recommended that apprentices are supported through their on-programme learning by their employer and or learning provider in the following elements:

- ▶ The Care Certificate
- ▶ Level 2 Diploma in Care (RQF)
- ▶ Completion of the Self-Assessment exercise
- ▶ Ongoing assessment by the employer and provider – for example meetings with apprentice, employer and learning provider, observations of workplace, gathering evidence.

Independent end point assessment organisations

Approved assessment organisations are registered on the SFA Register of apprenticeship assessment organisations. Assessment organisations are responsible for ensuring assessments are conducted fairly and that assessments are valid, reliable and consistent. To access the list and find an assessment organisation visit: <https://www.gov.uk/government/publications/using-the-register-of-apprentice-assessment-organisations>.

The employer will approve and appoint the assessment organisation to undertake the independent end assessment of the apprentice.
