

Understanding Workplace Culture

Understanding Workplace Culture is a practical continuing professional development (CPD) module aimed at registered managers.

This CPD module will help managers to explore the critical links between vision, values and culture, providing practical support to influence change and develop the culture of their service.

Unlike undertaking formal qualifications, which can often feel like a solitary process, this CPD module connects managers with their peers.

Managers will understand how successful behaviours and practical strategies can support them in their day-to-day work. They'll be challenged to put these into practice, boosting their capacity to lead and manage effectively.

The module includes an emphasis on reflection, helping managers to learn from their day-to-day experiences and think about how they can do things differently or get better at recognising what they do well.

Overall Aims
